CT Defense SRL performed an **API Security Assessment** to assess the risk that a real-life, targeted attacker poses to the security and integrity of the **mednet API**.

The security assessment was performed on the dates between the **19th of October, 2022**, and the **4th of November, 2022**.

CT Defense is **CREST certified** and the engineers performing the assessment are certified with **OSCP**.

Overall, CT Defense SRL assessed the application at **low risk**, as no high-risk issues have been identified in the mednet API.

The application has no unmitigated risks and we are glad to designate it as
